WORK EXPERIENCE

Software Engineer

Caroobi

01/2019 - 03/2020

Noida, India

Tasks

- Worked on Caroobi's customer portal. Optimized the older version, added some new features and rolled out its v2 on production resulting in increased customer activity.
- Also worked on another project - Mechanic portal. Added the complex multiple basket feature after an extensive discussion to a success.
- Created a whole new user funnel replacing the previous one in a weeks time on priority.
- Coordinated with the project managers for different tasks, estimated the deadlines and took end-to-end responsibilities of the tasks.

Senior Frontend Developer

Wisitech

09/2018 - 01/2019

New Delhi, India

Tasks

- Worked for a Dubai based startup to develop their one-stop social and e-commerce website.
- Led the frontend development process and worked across the modules.
- Created the reusable components, directives and pipes and integrated them within the website.
- Analyzed the requirements and created the basic structure of different modules.

Application Development Analyst

Accenture

01/2017 - 08/2018

Gurgaon, India

Tasks

- Worked in the UI team as the frontend developer for [T-Mobile](#). Developed the plan selection section in the prepaid user flow.
- Coordinated within and across the teams to ensure the smooth development process.
- Wrote and helped the colleagues to write the test cases for the existing code improving the overall code coverage.
- Modified existing web application to correct errors or to upgrade interfaces and improve performance.
